

## *Background*

Osprey's Dominion's first vines were planted in 1983 on 24 acres in Peconic. An additional 16 acre parcel in Mattituck was purchased and planted in the early 1990s, but it wasn't until the 50-acre purchase of land and buildings at the present Main Road location in Peconic that Osprey actually began producing and selling. In 2003, the entire Richmond Creek second label was introduced to complement the Osprey line. All 25 wines available for sale are produced on site from estate grown grapes.

## *Facts*
