

Pindar

Background

Pindar Vineyards was founded in 1979 by the entrepreneurial Dr. Herodotus "Dan" Damianos. Starting off with just 30 acres of uncultivated land in Peconic on the North Fork of Long Island, Dr. Damianos envisioned grand possibilities for his fledgling vineyard, named after the Hellenic poet from Sparta. His dream is being realized as the expanding Pindar currently encompasses nearly 550 acres of prime viticultural property, making it Long Island's largest vineyard.

Pindar, the oldest winery on Long Island under continuous family ownership, is run by Dr. Dan and his three sons, Alex, Jason (Winemaker), and Pindar (Vineyard Manager). Pindar takes meticulous care in producing its wines and today the name has become synonymous with quality and reliability.

Facts

Established	1979
